Electric Mobility Scooters

MARSHELL ELECTRIC VEHICLES

COMPANY PROFILE

Marshell is the world class leading manufacturer with a core business in developing and producing all kinds of electric vehicles and auto-electronic products since 2002.

With over the last two decades of technological accumulation and manufacturing experience, Marshell has excellent self-design and productive capacity, and owns 8 production lines that can offer more than 1,000 products in dozens of categories.

COMPANY ABILITY

Marshell has 3 production bases in Guangdong, China and Vietnam with workshops spreading over 500,000 square meters, which can produce huge variety of product ranges comparing to its competitors, such as golf carts, sightseeing buses, golf trolleys, mobility scooters, customized carts, cleaning equipment, folk-lifts and pallet stackers. Marshell has the production capacity to manufacture over 1200 units per month which will increase as we expand. All of these advantages make Marshell become one of the largest electric vehicles manufacturers in China.

DL24800-1

POWER SUPPLY

Battery	12V45AH*2
Motor	24V800W
Controller	PG 24V 120A
Charger	24V5A

PERFORMANCE

Max. speed	15KM/H
Max.traveling range	30KM
Climbing capacity	15%
Brake range	4.6M
Minimum turning radius	1.8M
Gross weight	142KG
Carrying capacity	182KG

DIMENSION

Tyre	12"
Normal dimensions	1320*685*1350MM
Folded dimensions	1320*685*1050MM
Carton dimensions	1450*692*795MM
Qty per container	24PCS/48PCS/72PCS
Optional parts	75AH battery, Sun canopy, Rain cover enclosure , Solid tyre, Rear bag, Cane holder

Color Choices

Model No.
